MESSAGE from the GOVERNOR

s governor of the great state of Utah, it is my honor to recognize Utah's most exclusive club, the Governor's Century Club of Utah, and its members: Utahns who have reached their 100th birthday and older in 2021.

We have much to learn from our centenarians. They have been instrumental in shaping our state's culture, legacy, history, and people. These individuals have lived to see changes and historic moments that many of us can only read about in history books. They've watched modern transportation evolve and technology grow among other things. The Utahns in the 2021 yearbook are resilient. They lived through historic events such as World War II, the Civil Rights movement, and a global pandemic to name a few.

I encourage all Utahns to take advantage of the wisdom gained by the Utah Centenarians throughout their lives. We work to collect life histories and photographs from Utah's Centenarians in hope of not only honoring them through this yearbook, but also preserving their legacy and stories for the benefit of generations to come.

I join the Utah Division of Aging and Adult Services, and all of Utah's governor's since 1987, in presenting the Governor's Century Club of Utah Yearbook. I hope you cherish these remarkable individuals and their stories. I hope we will all be inspired to live a life of impact and legacy – for however many years we are gifted on this earth.

ABOUT the GOVERNOR'S CENTURY CLUB

hirty-two Utahns over the age of 100 gathered at the Utah governor's mansion in 1987 at the invitation of Utah Governor Norman Bangerter and first lady Colleen Bangerter – the first of what would become the proud tradition of the Governor's Century Club Celebration.

It used to be a common belief that people of advanced age should be left alone and not bothered. In 1985, with the intent of proving that many older people enjoy socializing and participating in community activities, Lynn Peters Alder, a volunteer consultant, implemented the Phoenix Centenarian Program. In 1987, the National Institute of Aging established Sept. 22 as National Centenarian Recognition Day. Alder contacted each state in the country to encourage local participation.

In response to this request, the Utah State Division of Aging and Adult Services contacted Gov. Bangerter, who held the first celebration. The tradition continued under Governors Michael Leavitt, Olene Walker, Jon Huntsman and Gary Herbert.

The celebrations were initially held in the mansion's ballroom, then in the gardens. After a fire damaged the mansion in 1993, the event was held in various locations before returning to the mansion's gardens. As more people lived longer, healthier lives, the Century Club Celebration outgrew that venue, and was moved to the Utah State Fairpark. It has since been held in multiple locations. Since 2013, the celebration has been held at the beautiful Viridian Event Center at the West Jordan Library. Due to the Covid-19 pandemic, the event was canceled in 2020 and 2021.

The number of Centenarians who attend the celebration has fluctuated year by year, but grown over time. Thirty-two Centenarians attended the Governor's Century Club Celebration in 1987, a number that nearly doubled to 58 attendees by 2017. The total number of Centenarians known to the Division of Aging and Adult Services peaked in June 2020 at 172.

The oldest person in the history of the Governor's Century Club of Utah was Joe Begay, a Native American living on the reservation near Bluff. He was born on March 15, 1886, and passed away in late 2001, just a few months shy of his 116th birthday. When he was 112, his children had to "take away his car keys" by refusing to let him continue to ride his horse.

We are inspired by the Centenarians' lives and stories, and look forward to continuing this celebration of their lives for many years to come.

The club is open to anyone over the age of 100. You can apply for you or your loved one to be recognized at daas.utah.gov/centenarians or by calling 801-538-3910.

Edith "Edie" Allison Akers

EDUCATION:

dith's parents were divorced when she was about five years old, and her mother supported the family through her job as an x-ray technician. Each time her salary increased, the family would move to a better place. Edith attended five different elementary schools in six years and three junior high schools in three years. She spent a full term at Soldan High School in St. Louis, Missouri, and graduated with honors in June 1932. After her husband's death, she took night school classes in medical terminology, typing, office machines, bookkeeping and accounting.

"Never hurry, never worry.

Trust in God.

Choose to be happy."

OUTSTANDING MEMORIES:

In 1927, Charles Lindbergh was the hero of everyone in St. Louis. One day Edie and her brother, Bobby, went to Forest Park for a picnic. A sudden rainstorm drove them to seek shelter in a nearby memorial building. A large party arrived to look at the Lindbergh artifacts on display. Edie realized one of the ladies was Lindbergh's mother. Edie timidly approached her and asked if they could shake hands. Mrs. Lindbergh agreed with a smile. That has been a nice memory for 88 years! On another occasion, her family went to Lambert field. The caregiver rolled Lindbergh's plane out of the hangar, and Edie took pictures with her Brownie Box camera.

FAVORITE ACCOMPLISHMENTS:

Edie's family was so scattered that they were strangers until she took it upon herself to write letters and travel long distances to establish

a new feeling of love and kinship among her cousins, uncles and aunts. This bond is still strong.

ACTIVITIES:

As a volunteer in World War II, Edie became a member of the auxiliary police (Civilian Services). Duties included directing traffic and patrolling the beach at night on the look-out for Japanese submarines. She also served as a den mother in Cub Scouts, an income tax consultant to the elderly and low income individuals for twenty years, and an officer in a chapter of Golden State Mobile Home Owner's League.

Edith, 1929

BORN:

1915 in Dupo, III., the third child of Phillip Arthur Allison and Mildred Berry Allison.

DESCENDANTS:

Two sons (both deceased), three grandchildren, six great-grandchildren and six great-great-grandchildren.

HOBBIES:

- Needlepoint
- Flower gardens
- Collecting coins, stamps, spoons
- Fishing
- Bowling She bowled in local leagues as well as city, state and national tournaments.

Derral J. Allen

BORN:

1919, in Hyrum, Utah to Donald and Mabel Allen.

FAMILY:

He had two brothers, two sisters and one half-brother and one-half sister. His half-sister is still living. He was happily married to his wife, Helen Joanne Tisch, for 69 years. The two of them traveled extensively in the U.S. and Europe. Helen died at the age of 95 in 2015.

DESCENDANTS:

Three children, five grandchildren, nine great grandchildren, and three great-great grandchildren.

HOBBIES:

- Reading
- Spending time outdoors
- Attending exercise class everyday

"You must treat nature and other humans with respect and make the most of it while you can."

OUTSTANDING MEMORIES:

erral spent his childhood years in Hyrum, Utah, where his father worked at the local dairy and kept a small farm. His grandfather owned the general store. Derral loved hiking in the mountains of Cache Valley, fishing in the nearby streams and hunting in the surrounding woods. One of his favorite memories is walking home late one evening after a long day of picking beans and harvesting beets, knowing that he was the luckiest person alive. After graduating from high school, Derral joined the Army Air Corp at the age of 20 and became a radio operator. He was stationed in an outpost in Alaska where the cold, lack of food and lack of intellectual stimulation encouraged him to enroll in officers' candidate school. After graduation, Derral was stationed in Hawaii, which he remembers was a lot warmer than Alaska. He left active service at the end of World War II, but would enlist in what would later become the Air Force Reserves. In 1947, Derral became an air traffic controller, managing traffic at several airports in the west, including Los Angeles, Oakland, Phoenix and Hill Air Force Base in Utah. He retired from the Federal Aviation Agency after 25 years of service.

FAVORITE ACCOMPLISHMENTS:

Derral's favorite accomplishments were serving in World War II, working as an air traffic controller, and being a loving husband, father and friend.

IMPRESSIVE CHANGES:

Derral feels that the two most impressive changes he has seen during his lifetime are the rapid growth of population throughout the world and the creation of the internet. He feels population growth has negatively impacted the hills and forests that he loves so much, but he does like the continued protection of local, state and national parks. The internet is a thing of wonder to him – to think a person has a wealth of knowledge at his fingertips!

Derral, 1944

Emma Melissa Cooper Ankerson

BORN:

1919 in Belton, S.C., the fourth of Byron and Carrie Lou Cooper's seven children

DESCENDANTS:

Three children, 10 grandchildren, 35 greatgrandchildren and 14 great-great-grandchildren.

HOBBIES:

• In 1947, Bill gave Emma a set of 1930's silhouettes for their anniversary. Her collection grew to 87 silhouettes. Much of this collection has now been shared with family, but Emma still has silhouettes to enjoy.

"Just don't die."

OUTSTANDING MEMORIES:

n Feb. 1938, Emma married Wilmer Anthony Ankersen II. In 1943, they packed up their three young children and moved to California, where Wilmer took a position in the naval shipyards. Emma and Bill loved animals. Over the years, Emma's menagerie included several cats, a variety of birds, a turtle that lived for 30 years and, most recently, a toy poodle named Birdie. Emma is regarded for her southern hospitality and cooking, which she showcased often. Grandchildren fondly remember hearing a bell tinkling, which indicated Hostess Ding Dongs would appear. She drove her children, and

Emma and Bill's wedding, 1938

often their friends, many miles to school in neighboring towns. She never missed one of her kids' sporting events, and went to great effort to attend important events and be part of the lives of her children, grandchildren and great-grandchildren. She loves taking her grandchildren to parks, Disneyland, Knott's Berry Farm, and teaching them to play cards. Her listening ear and warm heart make everyone who spends time with her feel special and valued.

FAVORITE ACCOMPLISHMENTS:

Emma served for decades in leadership roles with the Legion of Mary. Emma had a card for every occasion for friends, family and community alike, each with a personal note and often a dollar or two tucked inside. Her grandchildren and great-grandchildren anxiously awaited the mail, especially around their birthdays. Beginning in 1953, Emma spent 25 years managing cafeterias in public schools in Buena Park, CA. Teachers and administrators from all over the district chose her cafeteria for lunch.

BEST ADVICE:

Get an education! Learn all you can, wherever and whenever you can. If you can read, you can learn anything you wish to know. Newlyweds should move away from home. If you can't say something nice, don't say anything at all.

Bill, Emma and their three children, 1945

"Don't live so long! Families should eat together, pray together and help others who are in need."

OUTSTANDING MEMORIES:

hen I was five years old, my sister Irene and my dad had typhoid fever. We lived in Holbrook, Idaho, at the time and had to hire a nurse "old lady Noles" to take care of them while the rest of the family moved in with Aunt Eva Farnsworth about a mile away. I got so homesick one day that I ran back home, sneaked into the house, climbed up a chair and peeked over to see dad and Irene. They were both bald! When "old lady Noles" noticed me, she sent me back to Aunt Eva's. On the way to her place I knelt and prayed to please save my dad and my sister because I loved them. I promised heavenly father that I would mind dad and never give him any trouble. Shortly after that, their fevers broke and it proved to me that prayer was an important part of my life. My sister, Faye was born with a drooping eyelid and when she went to school the kids, even her best friend would tease her. She would go home crying and I would stay and beat up anyone who called her "cockeyed." Many a-speaking did I receive for that, but I continued to protect her all through grade school. In high school she was top of her class and the valedictorian, she was personality plus!

FAVORITE ACCOMPLISHMENTS:

To get all of my 11 children, I married three times. One of my favorite accomplishments is to have lived this long and to have had all my family and friends get together to celebrate my 100th birthday. There were at least 200 people between family and friends at my birthday party! I enjoy making quilts for my grandchildren. I paint decorative plates with acrylic paints for my grandchildren and friends' homes. I enjoy babysitting my grandchildren.

IMPRESSIVE CHANGES:

I think computers are wonderful, however, with good comes some bad. When I was younger, America was wonderful. Young people learned to work to take care of ourselves and help others. Today I see families don't take time to enjoy one another.

SECRET TO LONGEVITY:

Good genes, exercise and the best thing I do is stationary bicycling.

June Agren Brown

BORN:

1919 in Harrisville, Utah, the seventh of eight children of Stephen Andrew Agren and Samantha Shurtleff Agren.

HOBBIES:

- Handiwork
- Sewing
- Embroidery
- Crocheting
- Knitting
- Exercising
- Bottling and drying fruit
- Cooking and baking cookies
- Spending time with her family

"Eat good food, exercise, read good books and scriptures, go to uplifting performances of family, enjoy visiting with family and friends, enjoy the outdoors, attend your church meetings and always be willing to do service."

OUTSTANDING MEMORIES:

une spent her childhood on a farm in Harrisville, Utah, and was expected to help with farm chores and household duties. Her family was blessed to be on the farm with plenty of food to eat during the Great Depression. She enjoyed hiking, being pulled by horses on a bobsled, and playing games outside with family and friends. She went to church with her family in a horse drawn "surrey with the fringe on the top." June's courtship with Kenneth Brown started in spring 1942, and they were married in the Salt Lake LDS Temple Aug. 10, 1942. They had twin boys, Bruce and Brent, and a third son, Christopher. She lived in Washington Terrace and moved that same home to Harrisville in 1951, where she still resides. She started teaching school in 1941, stopped teaching to have her family and returned as a kindergarten teacher in 1955 for 19 more years. During the summer breaks, June and her family traveled many places in their camper. Ken passed away in 1991, and her son, Christopher, passed away in 2000.

FAVORITE ACCOMPLISHMENTS:

SECRET TO LONGEVITY:

Inheriting good genes, eating wholesome foods and living a healthy lifestyle. "When I was a kid, if I wanted a treat, I'd go out to the garden and pick a turnip or carrot because we didn't have junk food."

Ken and June, 1942

Telesila Trivino Castro

BORN:

1915, in Guayaquil, Ecuador. Telesila is the second of eight children born to Victor Triviño and Dionisia Castro.

DESCENDANTS:

Four children,13 grandchildren and 15 great-grandchildren

BEST ADVICE:

We live with constant challenges. Even though we are different we shouldn't fight but celebrate our differences. Start each day with positive thoughts and the willingness to help others. I never thought I would be a U.S. citizen or that I would reach past 100 years old. Every day I celebrate with a song to life. Every morning is an opportunity to love and serve.

"I have tried to live a quiet life, at peace with myself and others, in connection with the Lord. I enjoy giving whatever I possess to others, even if is not much. I just love it if I can provide to someone in need!!! "

OUTSTANDING MEMORIES:

'y siblings and I received our elementary schooling at home. My father brought tutors and teachers to our home. When my parents passed away, our schooling stopped. When father was alive he was very old fashioned and always made sure his daughters were treated like special treasures. My dad wouldn't allow young men to come by the house with the intention of going out with us. We would receive serenades and letters hidden in books so no one in the house would know. To go out formally, we all had to be with chaperones. My oldest sister and I learned to be seamstresses and we worked for the family and neighbors to earn some money. At this time, we lived on a small farm. We had a lot of orange trees, cane sugar, avocados, cantaloupes, watermelons, guavas, mangos, beans, rice and tomatoes. When it was harvest time, all the owners of the farms invited the families to celebrate by cutting up and sharing watermelons. It was a party, an occasion to go out and enjoy the festivity. Parents and children looked forward to these dates to get together and enjoy a moment of happiness. Sometime later, we moved to the big city of Guayaquil with the support of the family's attorney. I stayed with this family because at the time I was engaged to my future husband Ernesto Castro. The lawyer and his wife married us. From this marriage four daughters were born. Later on all of my siblings, my daughters and I immigrated to the United States which is now our country. I am happy to see my grandkids reaching their goals, some working, and some studying. I feel complete and satisfied. Their triumphs are my triumphs.

IMPRESSIVE CHANGES:

Television is something we didn't have in my era. I enjoy watching the news and it's amazing to see the ability for us to communicate in different parts of the world, now even via video. I love technology, and I consider all these advances as technology that can improve our lives when they are used for our well-being even though I am not adept at using them.

Telesila and Ernesto, 1940

Phyllis A. Chatwin

BORN:

1915 in Devil's Slide, UT, the second child born to William Walter Abplanalp and Ida Huber Abplanalp. She has outlived her two siblings.

DESCENDANTS:

One child, three grandchildren, 11 greatgrandchildren and six great-great-grandchildren

HOBBIES:

- Knitting
- Oil painting
- Cooking
- Having family over for dinner
- Bottling my famous mustard pickles (a family favorite)
- Driving my Honda Accord (I love to be able to go when I want to go!)

Be pleasant, smile more, be kind to the less fortunate and be happy.

OUTSTANDING MEMORIES:

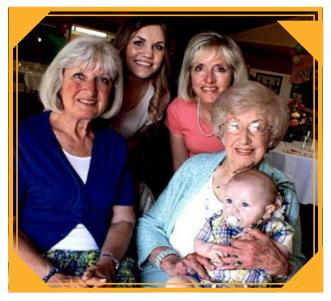

y early growing up years were very happy. Although we lived in the city, my parents were originally from Midway, Utah, a farming community of Swiss people. We spent many weekends and vacations there. We had many relatives there and many cousins to play with and visit. We rode horses, fed the newborn lambs with bottles of milk; we fed chickens and gathered eggs. My married life ended in divorce. I then worked several jobs, and I had the opportunity to travel to Europe, South America, Hong Kong, Hawaii, and around the United States. I worked until I was 70 years old. I took the family to Hawaii to celebrate my retirement. We had a wonderful time. My biggest accomplishments are the family I have and enjoy. My wonderful daughter and her husband are the greatest! They are so helpful and concerned. My home is a great place to be and it is mine! I have many in the family who are college graduates. They are all very responsible people. We have a lot of love in our family. They all support each other and that has made strong relationships over time. I've been healthy all my life, which accounts for lots of happiness and no doctor bills!

IMPRESSIVE CHANGES:

The Model T Ford, Dodge 1950, the airplane, travel to the moon. These are all so impressive! The ability to travel all over the world for everybody, medical treatments, education changes and the computer. Feeding the family so bounteously.

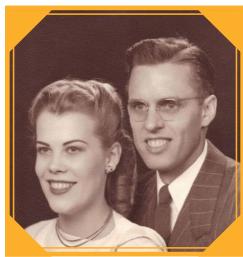

SECRET TO LONGEVITY:

Be prepared to receive the challenges of life with a positive attitude. Make good friends. Have financial security by saving. Start saving when you are young. Take very good care of your health.

Phyllis and her family

She also enjoyed many activities with her church youth group including climbing to the summit of Mt. Timpanogos. Marian attended Brigham Young University for two years beginning in 1937, where she met Bernard C. Christensen. Together they graduated from Utah State University (USAC) in 1941 with degrees in Landscape Architecture. Marian was the second woman to graduate in that field and the only female student in surveying at that time where she was known as the "powder puff" engineer. She and Bernard were married in 1946. They lived in Portland for a few years and then spent 36 years in Walla Walla, Wash., where they happily raised four children. They retired to Provo in 1985 to be nearer family. Bernard passed away in 1997.

When the children were young, Marian had a private landscape design practice. Later she enthusiastically taught junior high school for 16 years. She was active in the American Association of University Women (AAUW), Delta Kappa Gamma (Teachers' Honorary) and was the only female on the Regional Planning Commission in Walla Walla. As an active and lifelong member of the Church of Jesus Christ of Latter-day Saints, Marian has served in all of the auxiliaries at the ward or stake level including serving as a Relief Society visiting teacher for over 60 years.

IMPRESSIVE CHANGES:

Improved air travel allowed her to see interesting parts of the world and visit out-of-state family members. She has also been impressed with computer technology: "Much of it is beyond me, but it certainly changes everyone's lives."

SECRET TO LONGEVITY:

Who knows? Maybe just following in the footsteps of my mother and grandmother who both lived to be 103. •

Milton passed away in 1968, and Mae started working in the gift shop at the Salt Lake City Airport, where she worked for 10 years. One of Mae's earliest memories was when she was five years old and her family moved from Burley to Tyhee, Idaho, where she met her first best childhood friend. There was a pile of bedding and clothes in one of the rooms in their house, and they would climb up on the pile and slide down its side. Another of her favorite memories was a wonderful trip to Santa Catalina, Calif., but her favorite memory was when she married Milton. They spent their honeymoon in West Yellowstone, Mont. – the first time she ever saw Yellowstone National Park. Mick and Mae weren't alone on their honeymoon. They took three of Mae's siblings and their spouses. She loved going on picnics with Mick, their children and her brother, Vere, and his family up the canyons above Salt Lake. The thing she enjoyed most about those outings was being with family.

Ruth Isabelle J. Demsher

BORN:

1916 in the homestead her father built on his 320 acre dry farm in the far northeast corner of Montana. She was the first of four children born to a Danish immigrant farmer, Peter Jensen, and Mary Christensen Jensen, whose parents were also Danish immigrants. The tiny town listed on her birth certificate, Dooley, no longer exists; but the homestead where she was born and raised still stands today over 102 years later

DESCENDANTS:

Six children, 12 grandchildren, and 31 great-grandchildren

HOBBIES:

- Sewing and Cross Stitching
- Gardening

"Inherit good genes, eat healthy food, and always see something good in everyone you meet."

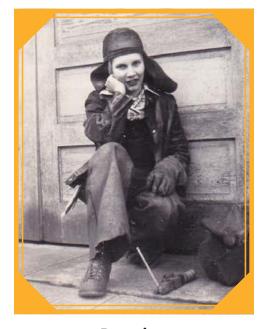

OUTSTANDING MEMORIES:

uth says she grew up like the family on "Little House on the Prairie." Her father plowed the fields with a team of horses. They got water from a well dug by her father, used an outhouse, lit their home with kerosene lamps, had Saturday night baths in a tub in the kitchen, and the three daughters shared a bed and slept in the attic. Ruth walked a half mile to the one-room elementary school she attended. When she completed the Montana education requirements, she went on to Summertown High School. Because the six miles was too far to walk, she, along with other students in the same situation, lived in old unoccupied houses in Summertown. When they went home each weekend, they brought back food to cook together. She graduated from high school in 1936. She would have liked to study nursing, but money was scarce so she went to beauty school in Helena. One of her regular clients was the wife of the governor of Montana! In 1941, Ruth and a girlfriend decided to go to Portland, OR to work in defense. They arrived there in 1941. Ruth had jobs soldering, welding the hulls of the Liberty Cargo ships, and yes, she riveted too. Here she met Joe Demsher, who had just enlisted in the Army and was leaving in two weeks to The Panama Canal where he worked in Army Intelligence. They corresponded for four years and were married when the war ended and he returned home. Joe and Ruth made their home in Oregon, eventually ending up on a farm in Canby. Their family consisted of four girls and two boys, but sadly, the older son died of spinal meningitis

as a toddler. Ruth and Joe joined the Church of Jesus Christ of Latter-day Saints in 1954 and became very busy in all of the church activities. Tragically, Joe died in a car crash in 1965. Ruth stayed on the farm until all the children were finished with high school. She then moved to Utah, where two of her older children lived.

Each child got one gift for Christmas along with a special treat: an orange and some peanuts in their stockings. Maurine and Arlien worked many years at the Main Street Drug Store and Fountain in Price. Their brother, Lloyde, would wait on the front porch with his dog for them to get home from work. Maurine met Dr. J. Eldon Dorman while working at the hospital in Price. She saw the new doctor arrive, looking sharp with his hat and cowboy boots! Maurine commented how handsome he looked, and the rest is history. They were married in 1943 in Las Vegas, Nev. In 1955, he formed Richard A. Fay & Co. (RAFCO), a securities broker/dealer firm in Beverly Hills, CA. An entrepreneur at heart, in 1970, he combined his background in finance and computers to work full-time in computerizing securities analysis. Dick was an early user of computers and financial databases. The strength of his techniques has been the use of statistics and quantitative approaches, which later financial research and theory validated in academic circles. He was a pioneer in theories and methodologies that uncovered fundamental stock market relationships. In 1973, Dick met his future wife, Carol McInerney. Three days later, she was the first woman to be selected into the Internal Revenue Service (IRS) Executive Program from outside the service. They were married Nov. 1973. Carol was elected as the Salt Lake City IRS district director in 1981. Dick and Carol decided to stay because of the warmth of the people and the quality of the University of Utah. For the past four decades, Dick has been developing techniques for realtime trading of security and indexes.

In 1994, Richard and Carol created the Richard A. Fay and Carol M. Fay Presidential Endowed Biomedical Informatics Center of interdisciplinary sciences in honor of Homer R. Warner, founder and first chairman of the department.

 especially the mountains
- Being outside and enjoying the beautiful sunsets from my home

"Make people's lives your business. It will change your life and theirs for the better."

OUTSTANDING MEMORIES:

e moved to Oregon from Idaho when I was eight. I learned about forming close relationships through my best friend, Ruth McNeill. When she died at 14, I was heart broken, but that opened my heart to always being close to and interested in people. I went to BYU and received a mission call to the Central States Mission. After my mission I received 24 marriage proposals, all of which I turned down. Why, you ask? Because number 25 captured my heart — Paul Dean Proctor. We married in 1945 in the Salt Lake Temple. Paul finished his doctorate, then taught at BYU for eight years. In 1957, Paul was offered a position at the Missouri School of Mines, where we moved and lived for 27 years. We had four wonderful sons (I wanted 12) and a 230-acre farm and spread of woods in Missouri. The boys would hike, fish, canoe, and go spelunking in Missouri's many caves. Of course, I did all these things with them. Paul's career took us all over the world, including two sabbaticals to Turkey. More than anything, I loved serving in the church, and I have hosted guests from more than 80 countries in our home. Paul and I "retired" to Provo where he then taught at BYU for 10 more years, and we served a mission to Canada prior to his death in 1999. Three years after Paul passed away, I received marriage proposal number #26 from Royce Flandro, and at age 83 I remarried. We were married 16 years and served a mission in Spain. At age 93, I rode a camel in Jerusalem, throwing my arms into the air. That made my posterity think I was the coolest grandmother ever.

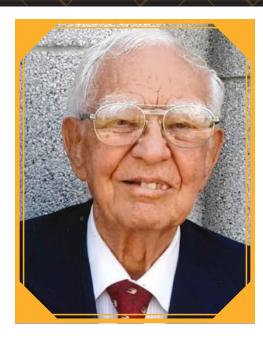

FAVORITE ACCOMPLISHMENTS:

My greatest accomplishment has been raising four wonderful sons. They, with my husband, are a part of nearly every memory I have. I have a quiver overflowing with the finest friends and people I could ever imagine. I've served three missions and traveled to every continent except Antarctica, but having four sons, 23 grandchildren and 53 great-grandchildren is my favorite accomplishment.

OUTSTANDING MEMORIES:

When Ralph was three, his father passed away during the flu epidemic after World War I. The family could not maintain their farm, so they moved from Idaho to Harrisville, Utah, to live near his grandparents. Ralph has fond memories of traveling with his grandfather by horse and wagon to pick up bushels of peaches in Brigham City. Ralph started working summers at age 12 to contribute to his family's income. He started with picking beans and fruit at \$0.50-\$0.60 per day. Later he thinned and weeded sugar beets for \$1 a day. At 16, he was delivering milk at 4:30 a.m. and was done in time for school at 8 a.m. After his mission to the Northwestern states, Ralph taught himself the telegraph and went to work for the Union Pacific Railroad for 37 years. He met his beautiful wife, Marjorie, at a church dance and walked her home afterward. They had been married for 73 wonderful years when she passed away at age 95.

FAVORITE ACCOMPLISHMENTS:

Marrying his wife, raising good children and still living in his own home to this day. He is mainly independent, does his own cooking and goes bowling once or twice a week. Ralph jokingly says that his greatest accomplishment is living to 101 years old, but again, "Anyone can accomplish that if they live long enough."

IMPRESSIVE CHANGES:

Ralph remembers using eight-party phone lines, and now cell phones and computers are the norm. When he was young, at least half the population still traveled by horse and buggy. Ralph's father bought the first family car in Basalt in 1919. He doesn't recall anyone flying in planes when he was young; there was only a mail plane that flew overhead once a day. Ralph has also witnessed many miraculous changes in the medical field.

SECRET TO LONGEVITY:

It's still a secret and I don't know the answer, other than healthy living, keeping active and staying positive.

It sure beat riding a horse! He rotated with his sisters for the first, second and third baths in the bathwater they carried to the house in buckets. John worked as a miner to support his wife, Sarah, and their three children, and was paid a sack of groceries, housing and \$25 a week. John was drafted into the army to serve in World War II and assigned to the motor pool at Fort Dix, N.J. After the war, he divorced and moved his family to Las Vegas, where he met his second wife, Lois Ostro. They had three children together. Lois passed away in 1986, and John married Inga Johnson the following year. After Inga's death in 2013, John moved next door to his daughter in Manti, Utah.

FAVORITE ACCOMPLISHMENTS:

John loves his children. They have been a joy in his life. He says he has a small family, as he only has 11 grandchildren, 13 great-grandchildren, and 10 great-great-grandchildren! He loves hearing of all their successes and hopes that he's been a small part of who they are. He's so proud of who they've become.

IMPRESSIVE CHANGES:

John likes using a water heater instead of chopping wood to boil water on a wood stove. He thought phone calls via a switchboard operator were great, until he got a private line with a dial. Now he

thinks his iPhone is top-notch. He doesn't like working on modern vehicles, but he loves how fast they are and enjoys modern comforts like air conditioning.

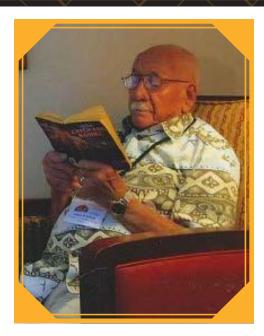

SECRET TO LONGEVITY:

One of his favorite accomplishments was his military record in World War II and receiving an honorable discharge.

Lois played and went to school within those walls with the other missionary children. They had Chinese servants who did all household chores and cooking, so she had to learn all her homemaking skills from library books as a young adult in college. Her education was unique. The missionaries hired a woman from the United States to teach their children. It was her job to prepare them for high school at the American school of Pyongyang in Korea. During her high school years Lois and the other missionary children would take a Japanese ship and sail to Korea to spend the school year boarding there. Upon graduation, she attended Wheaton College in Illinois. She married Otto Gruber in 1943, and they had five children. The family lived in Maryland, Washington, and California. In 2001 Lois moved to Utah. Lois has always had a competitive spirit and played many sports. She still enjoys dominoes and assembling jigsaw puzzles. OUTSTANDING MEMORIES:

he Hubbard family moved to Ogden in 1920. They had a cow, chickens and a nice big garden. They could play kick-the-can in the streets, in the river bottoms and in the big lot next to their house. Ida graduated from Ogden High School. During this time, she met William "Bill" Marler Hoggan, a friend of her brother Ronnie, who set them up on a blind date. They married in the Salt Lake Temple in 1941 and went on to have four children. Later that year, the attack on Pearl Harbor plunged the country into war. Two of Ida's brothers served in the military. Ida remembers rationing food and gas and other hardships of wartime. They later moved to California, where the climate was better for their health. Bill eventually did commercial art for North American Aviation and moonlighted doing silkscreening, carpentry and photography. Ida worked in — and later owned — a health food store, did housecleaning, and helped Bill with projects. Bill died in 1983 after a two-year battle with prostate cancer. Ida now lives close to her daughters in Grantsville, Utah. The family is close and sees each other as much as possible.

FAVORITE ACCOMPLISHMENTS:

Ida served in many church positions in primary, mutual, and scouting

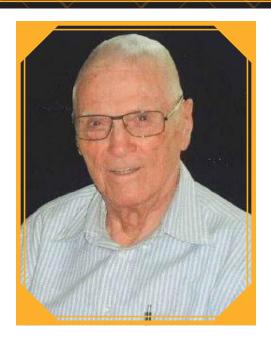

programs. She served as one of the oldest relief society presidents ever at 89, and was interviewed for a church news article in 2009 called, "This Lady's Too Busy To Be Old." She still has her driver's license and is known to take a friend on an errand around town or to the store. She is a great and careful driver.

orton was assigned to the 738th Tank Battalion, HQ Company, which conducted intensive training in the Mojave Desert and deployed to the European Theater in 1944. The 738th developed and operated a top-secret tank designed for night use and disruption of enemy forces with an intense carbon arc strobe light. Due to the high classification of the program and lack of awareness about its availability, the tank's use was very limited. Norton married his wife, Eula Lawrence at Ft. "Stay close to your family and friends. Find something you love to do and lose yourself in doing it."

OUTSTANDING MEMORIES:

arie's father developed rheumatoid arthritis as a young man and was largely confined to bed. Her brothers worked hard at a young age to help their father on the farm. Marie's parents were determined their children would have a good education. When she was about eight, they moved the family to Logan, partly to take advantage of the schools. Her mother supported the family by taking in boarders. Marie loved her new school, the paved sidewalks to roller skate on, the library and many new friends. When the large extended family got together, they often played card games. She remembers laughter, good-natured teasing, and maybe a little cheating! After high school, Marie enrolled at Utah State University and worked part-time in the Registrar's Office earning 15 cents an hour, which covered tuition and provided some spending money. She served as vice president of the student body and received the University Citizenship Award, graduating in 1938. Marie met her husband-to-be, Lloyd Johnson, when they were students at Utah State. They were married in 1938 in Washington D.C., where Lloyd was attending law school. She worked to help support them until Lloyd finished his studies. Her memories of Washington include attending Franklin Roosevelt's second inauguration on a freezing January day, joining the thousands who gathered to listen to Marian Anderson sing on the steps of the Lincoln Memorial, and the unpleasant but indelible memory of listening to Hitler's terrifying voice on the radio as he waged war across Europe. Lloyd's work took

them to California where they raised their three children. Marie worked in the LDS church Primary, Sunday school and Relief Society organizations and enjoyed serving as ward organist. She completed her California Teaching Credential and found a job teaching home economics. After 31 years of marriage, Lloyd died unexpectedly. Marie continued teaching school until her retirement in 1981. She served as a temple worker in the LDS Oakland Temple for two years and was happy to be called to help set up two genealogical branch libraries. In 1994, Marie moved to Pleasant Grove. 😘

OUTSTANDING MEMORIES:

ary grew up facing persecution and racism because she is of Japanese descent and lost her mother at a young age, but she has always had good friends and a supportive family. Mary warmly recalls that when she was 14 years old, the principal, Mr. Malstrom, asked his wife to help Mary make some clothes for her. Mrs. Malstrom helped make her a lovely dress, which she wore to tatters. Mary's step-mother introduced her to her husband, Charlie Kawakami, a Japanese mechanic who worked in Spring Canyon mine, and they married a couple of months later. Charlie's step father built her a beauty shop out of stone in Spring Canyon. She did hair styling there and made friends until Pearl Harbor, when people of Japanese descent were told to leave. OUTSTANDING MEMORIES:

I went to work in the office of Utah Poultry for a short time. I was married in Honolulu in 1938. We lived on Waialua sugar plantation for many years, and during that time the Japanese bombed Pearl Harbor. We had what we needed for food and the climate was perfect. At one time, we were told we may have to evacuate to higher ground if it seemed we would be invaded. We were assigned to houses in higher areas. We were told to keep our radios on for announcements. They were advising people to evacuate in Honolulu. We thought our call would be next, but the Midway battle changed the course of the war. We decided to move to Hood River, Ore. It was not a satisfactory move, so we went back to the islands and the sugar plantation. Later on we moved to Rexburg, Idaho, for a good many years. Our son, who was on a mission, was killed in a car accident in Austria. Many years after, one summer I decided to travel alone to Europe. I was able to visit many countries. Recently my granddaughter took me for an airplane ride to celebrate my 100th birthday, which was very exciting!

SECRET TO LONGEVITY:

Healthy food, exercise (she started doing yoga at 55), a clear conscience, debt-free living, and a positive attitude.

EDUCATION:

tella and her brother learned English as they played on the streets of Brooklyn and she learned math by making change in her father's grocery store in the Los Angeles area. She attended local elementary schools and was so intelligent that she skipped two grades, though her parents wouldn't let her go ahead of her brother. She graduated from Lincoln High School in Los Angeles at 16.

OUTSTANDING MEMORIES:

Her mother was ill for most of her growing years, and she spent a good deal of time alone reading or helping her father in his store. Her parents didn't speak much English, so the family was somewhat isolated after they left New York. She was the May gueen at her elementary school in third grade. It was about that time she learned to play the piano and found a great deal of joy learning as much as she could about all types of music. Some of her favorite times were when her father took her, on the street car, to see the Los Angeles Philharmonic Orchestra. She recalls the day of the "crash," when she looked out the window of their apartment in the morning and watched the people going to work on the street car, then how devastated they were when they returned that night having lost everything. It left a lasting impression, and may have been the cause of her frugality. She met Willis Frank McComas when she was 15 while playing the piano with a jazz band in Pasadena. They married when she was 18, and faced the challenges of being a young couple in a struggling society. They had three children in whom they instilled strong moral values and the importance of being thrifty. Willis passed away over 20 years ago, and she became a clown named Peek-A-Boo, making all her own costumes and developing expertise in making balloon animals. She volunteered her time at senior centers and fundraising activities like cancer walks and Alzheimer runs. At 91, she got a part in the film, then

continued to be cast in movies like "One Good Man" and "The Letter Writer," commercials, and production of the Church of Jesus Christ of Latter Day Saints.

FAVORITE ACCOMPLISHMENTS:

She was an accomplished pianist, her last "gig" being when she was 93 years old. She loved to travel with Willis, and they went on many trips throughout the U.S., Asia, Europe, South America, New Zealand, and the Holy Lands. They loved being together as they experienced different cultures.

He was reassigned partway through an LDS mission in Tahiti, due to World War II conflicts brewing in the Pacific. Stan was released before his mission companion and dated that companion's girlfriend: Helen Wardle. Stan and Helen were married in the Salt Lake Temple in 1942, with President Harold B. Lee officiating. They later served a second mission to Tahiti in 1981-83. Stan deployed in every major military battle in the E.T.O. during World War II. A high-speed Morse code radio operator, he served with Bradley's Secret Soldiers, known as the "Ghost Army of the E.T.O." In Paris, shortly after the invasion at Normandy, a French man — with tears of gratitude for freeing his country from Hitler's reign — offered Stan his World War I medal of honor. Stan humbly accepted, and that medal now hangs in his home. Stan always made fun with family the center of his life, and all 16 family members would pile in the station wagon for vacations. Good genes. My grandmother walked across the plains as a teenager. She lived to be 100 years old and died when I was 17.

"Look for the good in each day."

OUTSTANDING MEMORIES:

remember moving to Salt Lake in the depths of the depression. We were well accepted and not treated like "country hicks." Summer nights were often spent playing kick the can, run-sheeprun or hide and seek, or singing under the baton of Harry Gregory. I remember the banana peddler who knew if he came to our house, he would be invited to eat. Mother could not afford to buy his bananas. but he would always leave a few when he left. I spent my summers in Upalco on the farm. I enjoyed my years at the U and was a member of the women's basketball team in spite of my short stature. I took airplane flying lessons at Airport No. 2 in Salt Lake during World War II with the intention of joining the WASP. After passing the cadet test and while awaiting assignment to Sweetwater, TX, the minimum height was raised to 5'4" and that left me short 2" and out of the program. In about 1945 I began skiing at Alta and Brighton. In 1948 I competed in the annual Snow Cup races at Alta. I remember a fun trip to Sun Valley with my skiing friends. After the war I met and married J. Grant Nielson from Springville. It was there we made our home and raised our eight children - one son passed away at the age of 11. Those were good, busy years. My husband passed away in 1991.

FAVORITE ACCOMPLISHMENTS:

I feel the education I received was a real accomplishment. I am proud that I received my pilot's license. Working at the State Attorney General's office was a great experience. Being the mother of eight children was a real accomplishment. I believe I deserve some of the

credit for the five Eagle Scout awards earned by my sons. The service work I have been able to do in church is something I am proud of. I especially loved being able to work in the Provo Temple for many years.

IMPRESSIVE CHANGES:

I remember our home in Elsinore was one of the first in town with indoor plumbing. I remember sitting around the radio listening to some of our favorite programs like "Mert and Marge." Things have progressed so much over my lifetime.

SECRET TO LONGEVITY:

Wanting to be alive and staying engaged in life to me, is the secret to longevity, and also consciously choosing healthy habits and attitudes and making these habits for a lifetime. "Treasure your life. You have a place in the universe and knowing you are a child of God is an anchor in life's storms. Awareness of your significance to God provides a sense of self that can help you face challenges. Also, the future has no ceiling. There is always more to look forward to. Every day is a gift and an opportunity. Even if it brings you things you don't desire, or you make mistakes, life is precious. Rejoice in each day. And recognize that the future goes on after this life, there is always more to look forward to, more adventure on the horizon, more knowledge to gain, more love to share."

OUTSTANDING MEMORIES:

was the first to know that World War II had ended because I was working in the Navy message office when the news arrived. When I was in the Women Accepted for Volunteer Emergency Service (WAVES) during World War II, I got one of the highest scores ever on the test for electrician's mate. The Navy couldn't find me to report my score because they were sure no woman could score that high, so they were looking for an "Oliver" Osterwise. I'm glad the world is different for my daughter, granddaughters, and great-granddaughters. I taught school for 40 years and especially loved teaching how to read. I taught in inner-city schools because I wanted to inspire children to enjoy learning and to feel pride in their families regardless of their situations. My husband died after we had enjoyed only 21 years together. Life was not always easy, but I knew we belonged together. Faith and religion have been a part of my life since my earliest memories. I wanted my three children to have all the experiences we could crowd in: Chasing tornadoes, watching the re-enactment at the centennial of the battle of Gettysburg, trying to visit a Lincoln museum in Illinois in the middle of the night, and making a long detour to visit Hannibal and the Mark Twain museums. My grandchildren and greatgrandchildren are gifts from heaven; they are perfect and can do no wrong regardless of what their parents think. It is a joy to see their potential and view the future as I gaze at them.

IMPRESSIVE CHANGES:

I just tell my lights to turn off and on, it still seems like magic. The integration of cultures is also a big change from when I grew up, and I think it's great.

May God support me!

EDUCATION:

won my school letter for debating on the subject of social security. I graduated third in my class of 33.

OUTSTANDING MEMORIES:

I sadly became a motherless child at age three. I was the middle child, with one older sister, and one younger brother. I started my first real job, sight unseen, because of my good handwriting. I worked for Civil Services before World War II in D.C. I rented a room in the home of Alice Roosevelt Longworth on Pennsylvania Avenue which had been turned into a boarding house. I met my first bed there. I left D.C. and rode a bus across the nation to Spokane, Wash., where my brother was stationed in the Air Force. While there, I applied for a job with Employment Services and I was hired to work for the Air Force. While working for the Air Force I was able to travel in a B-17 bomber on a business trip. I was a Red Cross Nurse Aide during World War II and I sharpened needles for injecting medicines. I traveled a lot. While in Colorado Springs, I rode a burro (donkey) half way up Pikes Peak, and dragged him the rest of the way. He gladly walked down later. I met my Romeo at Camp Carson, Colo., at a dance at the Rendezvous Ball Room. Pat and I were engaged on New Year's Eve, 1945, while dancing to Lawrence Welk in Kansas City. My fiancée felt he had to get a job, so he went to California while I stayed back in Colorado. For a while, ours was a long distance romance. We married in a Baptist church in California. The wedding was arranged by a friend of Pat's. I made my own wedding dress and our total wedding expense was \$150. In our first apartment we washed dishes in a laundry tub. While we lived in Kansas, Mo., we saved an apricot crop from freezing with Christmas tree lights. Between Pat and me, we lived in 12 states. For a while we lived in a 25' x 8' trailer with a baby two years old, while Pat finished his degree at the University of Missouri. During those years, we helped build three churches and one temple.

Edith Carlquist Reed

BORN:

DESCENDANTS:

10 children, 28 grandchildren and 62 great-grandchildren "At the end of her life, my mother said: "If I had to do it again, I would love, love, love!" So would I. "

OUTSTANDING MEMORIES:

was born two days after the false armistice and two days before the real armistice of World War I, in 1917. When the Depression hit, the family moved to the Draper farm, one of several farms my father owned. Dad was in real estate, and coined the phrase "Draper, The Egg Basket of Utah," because raising chickens and selling their eggs was the cash crop. Rural Draper was beautiful. Across the street from the adobe two-story home we moved into there was a stream going into Bell Canyon. A wire cage was secured in it to hold and cool dairy products before we owned a refrigerator. One of my older brothers taught me how to drive our 1927's Marmon in our pasture (now the Draper Park). I was hired as the music specialist of the fourth grade at Emerson School, the school of my childhood. While at Columbia, I also had a job at the YWCA in the Bronx, N.Y., organizing activities for young women to explore "The Big Apple." My next teaching job was at the Hamilton School in California. Six months later, I embarked to North California as a missionary for the LDS church. Music was always a factor in my missionary life, but it was secondary to the main purpose. V.J. Day was a tremendous celebration in California. Before I left Santa Rosa, Calif. as a missionary, I was hired to teach choral music in the middle school. I came home to Draper, Utah, for Christmas vacation and I ran into my future husband, John G. Reed, a teacher I had known in the Salt Lake City schools. We married in May 1948. Being a wife and a mother and experiencing the joy of life and the sorrows of death and guiding the earthly development of those children dear to your heart 'til they leave home has been the highlight of all my life. In 1949 we bought a home in Salt Lake City, five blocks

away from the home of my birth — I call that full circle! Through the years it has been transformed into a place of peace and beauty with a lovely garden. Teaching music, associating with so many delightful people, sharing the love of people and music has been pivotal in my life. Walking my way through life and choosing to create a beautiful environment though gardening and music has been essential.

OUTSTANDING MEMORIES:

I grew up in Switzerland where I have fond memories as a child. I was a member of the Church of Jesus Christ of Latter-day Saints. I had a great desire to marry in an LDS Temple. I worked as a nanny in Boston for the son of the Swiss consulate. I had met Ed Schmidt (my future husband) when he was a missionary in Switzerland. After I arrived in Boston he moved there. We dated for a year then fulfilled my dream by getting married in the Salt Lake Temple. My greatest joy was raising six children in Salt Lake City.

raduated North Denver High School where I took shorthand, booking and business courses. When I attended school, it was not a priority for a girl to receive an education. It has always been a priority in my life, no matter the circumstances, to work hard and receive the education I needed to move ahead.

OUTSTANDING MEMORIES:

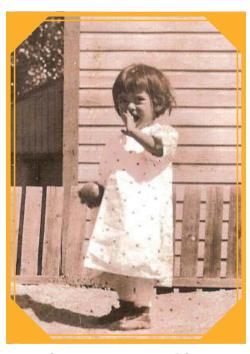

At age 11, my siblings and I were orphaned. Four of the siblings remained in Idaho Falls working and/or marrying. Four of us were sent to live with relatives and the two youngest were sent to the orphanage in Boise, Idaho. We never lost hope of reuniting. I kept in touch with six of my siblings, going to school and working to help support myself. After graduating high school, I caught a bus to Salt Lake City, where I was reunited with my six siblings. In 1939, I married and had two children. In 1947, I divorced and raised my children as a single parent, working as a waitress. In 1961, after searching for the two siblings who were put into the orphanage, we were reunited. We met at Brighton Ski Resort along with approximately 250 members of our families. What a miracle, and such a joyous time! In 1962, I remarried. I lost my husband in 2011 at 95 years old. During our life together, he bought me a new home which I never thought I would have. OUTSTANDING MEMORIES:

he remains of the old schoolhouse Irva attended until eighth grade are still standing. It's one of the few remainders of Widtsoe, now a ghost town. She attended Piute High School in Junction, and her family moved to Kingston when she was 17. When Irva was born, transportation was limited to horse and wagon in Widtsoe. "We didn't even have a buggy," she said. She spent her summers in Burro Flat. Once as a teenager, she and a friend decided to attend a dance. They rode a horse, carrying suitcases and coats. The idea was to hit the main road and get a ride with the mail truck. However, the horse had other ideas and ran to the granary. Eventually, they got the horse turned around and back on the highway; but, by that point, the mail truck had passed. It was the kind of adventure that teens don't have these days. "Things were different then," Irva said. After graduating from high school, Irva married Bob Brindley in 1938. Bob unexpectedly died in 1946. Irva sold the farm, and then did everything she could to make a living for her and her young family. She sorted potatoes for everyone in Antimony, Junction, Kingston, and Circleville, and landed a job wrapping meat. She decided she wanted to do something else, so she ran for Piute County Clerk as a Republican, a position she held for eight years. Her time in public office helped lead her to be the parent teacher association president, as well as the Piute County Republican party president. In 1947, she married Peter Sudweeks, and the couple resided in Kingston. Irva had four children: Charley Brindley, Cedar City; Bill (Joyce) Sudweeks, Kingston; (Linda) Brindley, Enoch; the late Jerald "Dude" Brindley; and Juana Englestead. After eight years as the county clerk, she applied for a job as the business director of the Piute School District. She retired from that position in 1986 at the age of 66. However, retirement didn't mean she guit working. Irva continued to irrigate, cut and haul hay. She still enjoys working in her yard.

FAVORITE **A**CCOMPLISHMENTS:

Verda Louise H. Watkins

BORN:

born in 1917, in Provo, Utah. Verda is the fifth child born to Josiah Howard and Louisa B. Park Howard.

DESCENDANTS:

One son, seven grandchildren and 20 great-grandchildren.

HOBBIES:

At 100 years old, Verda loves to listen to conservative talk radio, semi-classical music, and "Sounds of Sunday" streamed over the internet and produced weekly by her son, who has worked as a radio broadcaster for over 50 years. Verda is perhaps the oldest Los Angeles Dodgers fan listening to their games regularly over her satellite radio.

OUTSTANDING MEMORIES:

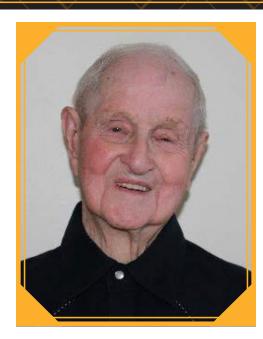

n 1928, when Verda was 11 years old, her mother moved with the four youngest children to Long Beach, Calif. Verda's mother was an obstetrician and worked as a midwife, which required her to stay away for several days at a time. During those times, Verda and her siblings lived at home alone preparing their own meals and caring for themselves. This was during the great depression, when money was scarce. Verda learned to play many instruments, including the violin, piano, baritone horn, trumpet, trombone, oboe, and cello. In Long Beach Junior College she continued with trumpet for a short time. Verda then enrolled in a sewing class which prepared her for her future as a seamstress. Verda met Leroy "Roy" Watkins at a dance in Long Beach around 1939. Roy was 19 and Verda was 22. Roy was drafted into the Army in 1941, shortly before the Pearl Harbor attack. Mail became their only source of communication, except for his military leaves authorized by the Army. During one of those military leaves, Roy and Verda were married in 1943. Roy was later transferred to Salinas, California. Roy was sent directly to Salinas on a train, leaving Verda to drive her 1941 Chevy, alone with her baby, to California. At that time, rubber was conserved for military use. She had two flats, and was able to buy only two new tires. She managed to reach Roy's parents in Oklahoma. Verda's mother had two new tires shipped to her in Oklahoma. She made another stop in Clovis, New Mexico to visit her younger brother, who had recently joined the Air Force. There, she was privileged to climb through his airplane while other soldiers held her baby. This was her last visit with her brother, whose plane was shot down and he was missing in action. Melvin was reported to have been killed in May, 1945, when his airplane crashed after a

bombing mission over Tokyo. Verda sewed many shirts for her son to wear to school. In the late 50's Roy and Verda met with friends every Friday night in the Lyngate Squares square dance club. During this time, Verda started a home business called, Twirl-Away-Togs, sewing petticoats and dance dresses for square dancers. She also sewed clothes, bags and toys for her grandchildren. In 2002, Roy passed away from Alzheimer's at the age of 81. In 2015, Verda was moved to a Retirement Community in Orem, Utah, to be closer to her five grandchildren living in Utah County. 🥴

Driving a school bus my senior year at Jordan High, I hit a slick spot on the road and slid into a gully with the bus tipped and leaned against a hill. I had the girls all sit on the high side of the road and us boys got out and pushed it back upright. I drove the gully until I could get back on the road, I didn't even put a scratch on the bus! I met my future wife Norma Mary Mousley at high school. After high school, I went to Civilian Conservation Corps and worked in Salina and the Soapstone area above Kamas. In 1935, I got a job with Kennecott Copper and ended up working in Magna Mill as a receiving clerk until I retired in 1978. Norma and I were married in Salt Lake City in 1937. In 1939 we bought an old home in Bluffdale, Utah, with 13 acres. Our first child was born in 1941 and our second was born in 1946. "I have just as many kinds of kids as Brigham Young." In 1955 we had enough money to build a new family home down the lane on Redwood Road, where I still live today. We had a milk cow and raised a steer and pigs for meat.
